amount

Pressure Gauge

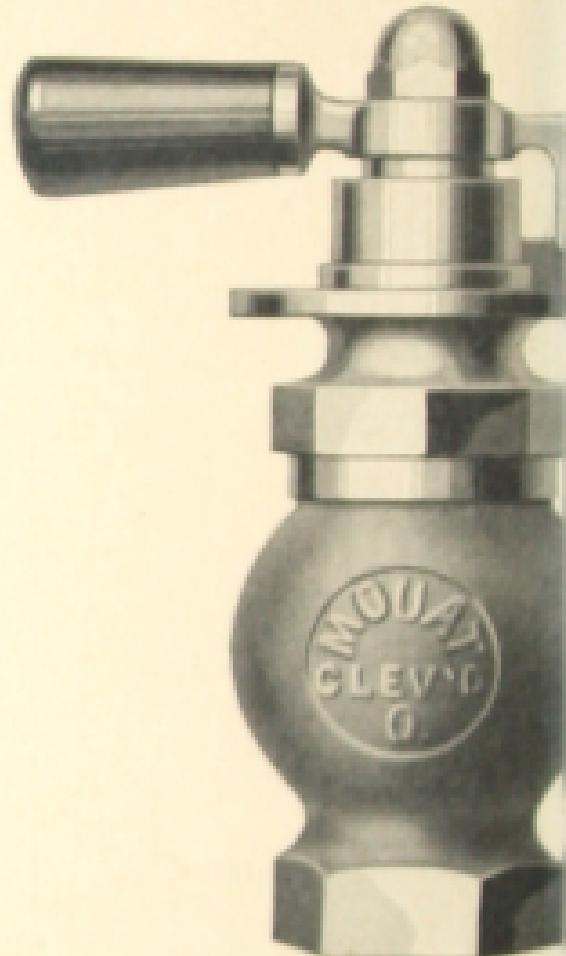

VAPOR PRESSURE

The Mouat Vapor Pressure Gauge measures pressure by water elevation in a glass tube.

AIR RELIEF VALVE

The Mouat Air Relief Valve or Mouser has a properly proportioned venting area.

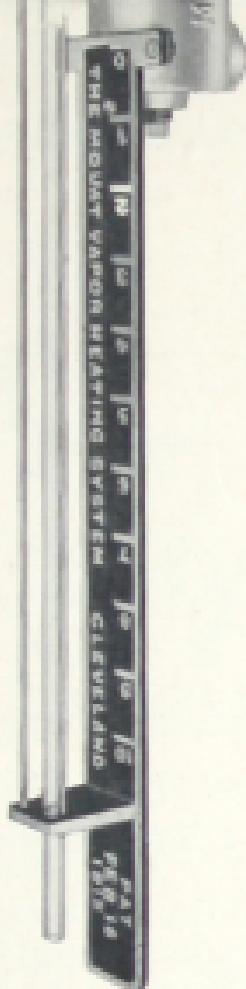

It has no thermostatic, mechanical or electrical parts.

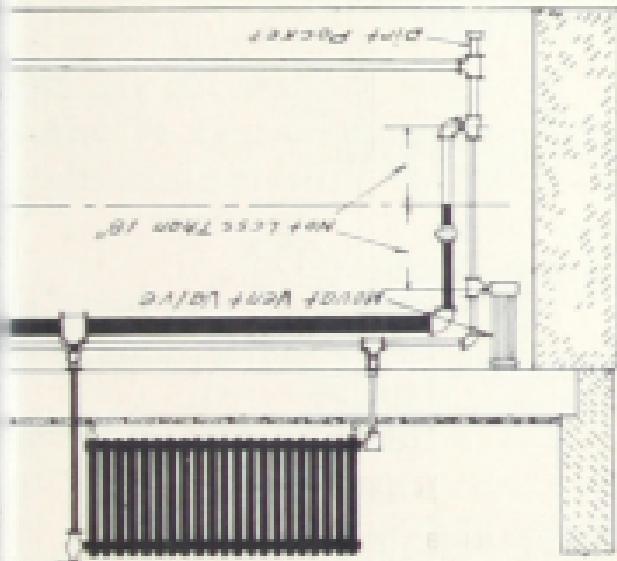

PACKLESS FRAC RADIATOR SUPPLY

Has Jenkins Disc and is substantially adjusted, when installed, to suit the size of the radiator to which it is connected.

THE MOUAT

D4S

Mouat

A TWO-PIPE gravity vapor ounce or more as required of operation and absence

The Mouat System permits vacuum or high pressure and will

The primary object of the making it possible to regulate the radiator supply valves and allowing in the diagram inside show how to opening or closing the radiator supply as desired.

A vapor system to be sure of a constant, uniform supply of vapor in a simple but effective manner and at the desired temperature.

The control of the heat and operating pressure makes this an

The Mouat is also a flexible system, capable of controlling temperatures in a manner that can be varied at will.

The Mouat Vapor Heating System is designed for burning coal, coke or gas. It is not a special system, but is the ordinary type of vapor heating system.
